

# D & J PORTABLES

The home of high quality, affordable portable buildings

## BENEFITS OF PORTABLE BUILDINGS

### SIMPLE INSTALLATION

Plug into an existing power point or can be hard wired.

### CUSTOM BUILT

No problems if design variations are required to suit your needs.

### TRANSPORTABLE

Built on skids, portable buildings are easily transportable.

### MULTIPLE SIZES

Available in different sizes to fit different spaces.

### AUSTRALIAN MADE

Australian made so you know your building will stand the test of time.

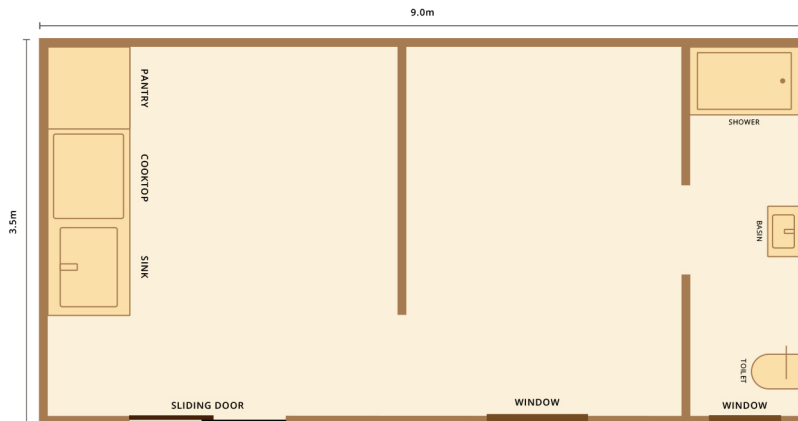

### AFFORDABLE

A more affordable option than permanent buildings.

## DESIGN 7

Measuring 9.0 metres wide and 3.5 metres deep, this is the largest of our designs and is usually provisioned with a dividing wall, a kitchen and an ensuite.

## ADDITIONAL OPTIONS

KITCHENETTES

DECKINGS

VERANDAHS

## CUSTOM DESIGN YOUR OWN

Whilst our most popular designs suit the needs of most people, it is important to note that all of our portable buildings are custom built in Australia, giving us the flexibility to build almost anything. As well as building to specific dimensions, we can also join buildings together to create different shapes and sizes to suit our clients specific needs.

### SIMPLE INSTALLATION

Plug into an existing power point or can be hard wired.

### CUSTOM BUILT

No problems if design variations are required to suit your needs.
